EDUCATION

B.E Computer Science
Loyola ICAM College of Engineering and Technology

2023 - current

H.S.E
Vana Vani MHSS, IITM
2011 - 2023

LANGUAGES

- Python
- C
- Java
- C++
- Dart
- HTML
- CSS

SKILLS

- Problem Solving
- Communication
- Critical Thinking

PROFESSIONAL SUMMARY

Dedicated and sincere Computer Science engineering student with an immense passion for programming, problem-solving, and mathematics.

Very much interested in developing and implementing software projects and in Data Structures and Algorithms.

Proficient in languages like Python and C, as well as in Data Structures and Algorithms, with a keen interest in Backend Development and Competitive Programming.

A collaborative team player with good communication skills. Very eager to work with like-minded developers and tackle challenging development tasks.

PROJECTS

Chess App   Flutter, Dart
A Fully Functional AI integrated Chess App built with flutter

Neural Networks from Scratch   Numpy, Python
Neural Network model built from Scratch in python
only using NumPy

Weather App   Flutter, Dart
A simple Minimalistic Weather App built with flutter

URL Shortener   Flask, Python
URL Shortener Built with Flask using HTML,CSS for frontend

Tic Tac Toe AI   Python and C++
Built TIC Tac Toe AI with Minmax Algorithm in
Python and Later in C++ too

ACHIEVEMENTS

- Won Special Mention for Software Projects in Capadium, The Pattarai hackathon, for a Team Project
- Won First Place in the coding contest held by yavarum keleier team and computer science department of LICET
- LeetCode Annual Badge holder for 2024 and 365 Days Badge holder for successful submissions
